## ***Pup's Behavior***

Any specific Fears or Dislikes? \_\_\_\_\_

Does your pup interact well with other Humans & Pets? \_\_\_\_\_

Has your pup bitten or shown aggression towards another Human or Pet? **Yes** **No**

If Yes, please explain the Circumstance:: \_\_\_\_\_

\_\_\_\_\_

Has your pup ever Jumped or Climbed a Fence? **Yes** **No**

If your pup has shown aggression and/or has jumped fences; we are most likely not the best fit for them. If we see this behavior during their stay, your pup will be separated from the others & will not be welcomed back. BARK BARN is Not Responsible for your pet if they jump our fenced in area (*vet bills, pound fee's, etc.*) And/or if your pup harms another pet or human, you as the owner, will be responsible for accrued medical bills for the damage he/she caused.

Please Initial that you understand and agree to the statement above.

All pups must be current on their **DHLPP, Rabies, and Bordetella** Vaccines. Shown with Vet Documentation. The **Influenza** vaccine is not required, but *Highly Encouraged*. Puppies must be at least 4 Months of age to board, with completion of Full Vaccination Series; *including Rabies & Bordetella*. It is required that Males are Neutered by their 1<sup>st</sup> Birthday (*or shortly after.*) Females that have had their 1<sup>st</sup> Heat Cycle will not be able to stay with us until they've been Spayed.

**Pup's Sleeping Arrangements**

Each pup has their own private bedroom fixed up with their favorites they may have brought from home – or beds, blankies, toys, food & water bowls provided by us at BARK BARN. All bedtime sleeps are in the pup's private bedroom. We do also allow "Sleepovers with the Humans" which is another one of those bonuses that makes BARK BARN so special. We do however understand that not all puparoos are allowed to sleep with their humans in their own homes, and we definitely don't want to send anyone home with new unwanted habits.

-- Simply Check "Yes" or "No" below --

If you check yes, please understand that this is not a guarantee they will get to sleep in a human bed. We typically do not allow pups from different homes to mingle and sleep together, due to possible jealousy issues. Sometimes the pup is just really stinky from all the fun & playing they've been having. HA! ...and sometimes the pups just simply prefer being in their own bedroom. Either way, you can rest assured that your baby will be pampered and have a peaceful nights rest.

Check (Yes) if it's okay for your pup to sleep in a Human Bed or (No) if you prefer them not::
